

Dr. Phoebe Starfield Leboy is currently the President of the Association for Women in Science (AWIS). She started her career as a postdoc at the Medical School of the University of Pennsylvania. She then moved to Penn's School of Dental Medicine to help establish its Biochemistry Department, becoming Professor of Biochemistry in 1976. A long-time member of the Penn's Cell and Molecular Biology Graduate Group, she was also a member of the Bioengineering Graduate Group in the School of Engineering and Applied Sciences. At the University of Pennsylvania, Dr. Leboy chaired the Graduate Group in Molecular Biology, the Department of Biochemistry in the School of Dental Medicine, and also the University's Faculty Senate. She served as a permanent member of several NIH grant review panels and recently completed a term as chair of the NIH Skeletal Biology Development and Disease (SBDD) Study Section. During 2000-2001 she co-chaired Penn's Task Force on Gender Equity, and in subsequent years served as a liaison from Penn to the MIT/9 University consortium on gender equity in science. Dr Leboy has received a NATO Postdoctoral Fellowship, an NIH Research Career Development Award; a Fogarty Senior International Fellowship, and a Lindback Award for Distinguished Teaching, as well as several mentoring awards. She has been a visiting professor at the University of California-San Francisco, a visiting fellow at Oxford University, and a postdoctoral fellow at the Weizmann Institute of Science in Israel. Dr Leboy received a BS degree from Swarthmore College and a PhD from Bryn Mawr College.
